

CORROSION SCIENCE

**TITLE SECTION, LIST OF CONTENTS, SUBJECT INDEX AND AUTHOR INDEX
VOLUME 47, 2005**

CORROSION SCIENCE

An International Journal of the Science and Practice of Corrosion and Protection published under the auspices of the Institute of Corrosion and Centre Belge d'Etude de la Corrosion (CEBELCOR).

This journal publishes original papers and critical reviews in the fields of pure and applied corrosion, the degradation of materials, and both surface science and engineering. It forms an important link between metallurgists, materials scientists and all investigators of corrosion and degradation phenomena.

EDITOR-IN-CHIEF

Professor G. T. BURSTEIN, Department of Materials Science and Metallurgy, University of Cambridge, Pembroke Street, Cambridge CB2 3QZ, U.K.
e-mail: corros.sci@msm.cam.ac.uk

EDITORIAL BOARD

- Prof. CHU-NAN CAO, Corrosion Science Laboratory, Institute of Corrosion and Protection of Metals, Academia Sinica, 62 Wencui Road, Shenyang, China.
Dr J. R. GALVELE, Departamento Materiales, Comision Nacional de Energia Atomica, Avda. Libertador 8250, 1429-Buenos Aires, Argentina.
Prof. H.-J. GRABKE, Max-Planck-Institut für Eisenforschung GMBH, 4 Düsseldorf, Max-Planck-Strasse 1, Germany.
Prof. K. HASHIMOTO, Tohoku Institute of Technology, Sendai 982-8588, Japan.
Prof. F. MANSFIELD, CEEL, Department of Materials Science and Engineering, University of Southern California, Los Angeles, CA 90089-0241, U.S.A.
Dr P. MARCUS, Laboratoire de Physico-Chimie des Surfaces, École Nationale Supérieure de Chimie de Paris, Université Pierre et Marie Curie, 11, Rue Pierre et Marie Curie, 75231 Paris Cedex, France.
Prof. H. W. PICKERING, Department of Materials Science and Engineering, Pennsylvania State University, University Park, PA 16802, U.S.A.
Prof. O. ROSA MATTOS, PEMM-COPPE-UFRJ, Federal University of Rio de Janeiro, Caixa Postal 68505 (P.O. Box), 21941-972 Rio de Janeiro, Brazil.
Prof. F. H. STOTT, Corrosion and Protection Centre, University of Manchester Institute of Science and Technology, P.O. Box 88, Manchester M60 1QD, U.K.
Prof. Z. SZKLARSKA-SMIALOWSKA, Department of Materials Science and Engineering, The Ohio State University, 116 West 19th Avenue, Columbus, OH 43210, U.S.A.
Prof. G. E. THOMPSON, Corrosion and Protection Centre, University of Manchester Institute of Science and Technology, P.O. Box 88, Manchester M60 1QD, U.K.

Publication information: *Corrosion Science* (ISSN 0010-938X). For 2005, volume 47 is scheduled for publication. Subscription prices are available upon request from the Publisher or from the Regional Sales Office nearest you or from this journal's website (<http://www.elsevier.com/locate/corsci>). Further information is available on this journal and other Elsevier products through Elsevier's website (<http://www.elsevier.com>). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.

Orders, claims, and journal enquiries: please contact the Customer Service Department at the Regional Sales Office nearest you:

NUMBER 1

- 1 Morphological analysis and classification of types of surface corrosion damage by digital image processing
- 17 Characterizing corrosion behavior under atmospheric conditions using electrochemical techniques
- 33 The inhibition of mild steel corrosion in phosphoric acid solutions by some N-heterocyclic compounds in the salt form
- 57 High-temperature oxidation of duplex stainless steels in air and mixed gas of air and CH_4
- 69 Anodic oxide films on tin in carbonate-bicarbonate buffer solution
- 79 Two distinct fracture modes of copper alloys in fluoride environments
- 95 Comprehensive model for the activation mechanism of Al-Zn alloys produced by indium
- 107 A morphological study of filiform corrosive attack on cerated AA2024-T351 aluminium alloy
- 125 Electrochemical impedance spectroscopy for the detection of stress corrosion cracks in aqueous corrosion systems at ambient and high temperature
- 145 Ageing effects in the growth of chromate conversion coatings on aluminium
- 151 Evaluation of inhibitors and biocide on the corrosion control of copper in neutral aqueous environment
- 171 Computer simulation of the corrosion pit growth
- 183 Repassivation behaviour and surface analysis of Fe_3Al based iron aluminide in 0.25 M H_2SO_4
- 195 The kinetics of hydrogen evolution and oxygen reduction on Alloy 22
- 217 Possibilities and problems of in situ techniques for measuring steel corrosion rates in large reinforced concrete structures
- 239 Stress corrosion cracking of copper and silver, specific effect of the metal cations
- 247 The role of the metal/oxide interface in the growth of passive films in aqueous environments
- 257 Bacterial degradation of naphtha and its influence on corrosion
- 273 The adsorption and corrosion inhibition of some cationic gemini surfactants on carbon steel surface in hydrochloric acid
- I Corrosion diary
- III Keywords for *Corrosion Science*

NUMBER 2

- 279 The importance of live biofilms in corrosion protection

289 Corrosion of reinforcing steel in neutral and acid solutions simulating the electrolytic environments in the micropores of concrete in the propagation period

307 Heat treatment effect on the corrosion behaviour of black passivated ZnNi alloys

323 A study on transition of iron from active into passive state

341 Chromate conversion coatings on aluminium-copper alloys

355 Study of the effect of δ phase on hydrogen embrittlement of Inconel 718 by notch tensile tests

369 Inhibition of steel corrosion by calcium benzoate adsorption in nitrate solutions

385 Corrosion inhibition of some metals using lawsonia extract

397 Water permeability of organic/inorganic hybrid coatings prepared by sol-gel method: a comparison between gravimetric and capacitance measurements and evaluation of non-Fickian sorption models

413 Influence of diurnal and seasonal temperature variations on the detection of corrosion in reinforced concrete by acoustic emission

435 Oxidation properties of Zr-Nb alloys at 500–600 °C under low oxygen potentials

447 Electrochemical and analytical study of corrosion inhibition on carbon steel in HCl medium by 1,12-bis(1,2,4-triazolyl)dodecane

461 Corrosion of copper in seawater and its aerosols in a tropical island

485 Electrochemical and quantum chemical studies of new thiadiazole derivatives adsorption on mild steel in normal hydrochloric acid medium

507 Radiotracer study of embedding of SO_4^{2-} and Cl^- ions into the surface film formed on Mn corroding in perchlorate solution

515 Corrosion of iron archaeological artefacts in soil: characterisation of the corrosion system

537 Influence of oxide grain morphology on formation of the CuO scale during oxidation of copper at 600–1000 °C
